

ROJAVA IS UNDER ATTACK!

DEFEND ROJAVA

DEFEND THE REVOLUTION

WHAT IS THE ROJAVA REVOLUTION?

Since 2012, people in Rojava - an area in North and East Syria - have built a democratic society based on:

- ★ **WOMEN'S LIBERATION**
- ★ **GRASSROOTS DEMOCRACY**
- ★ **ECOLOGICAL PROTECTION**
- ★ **COOPERATIVE ECONOMY**

Kurds, Arabs, Assyrians, and others have been running Rojava through councils and assemblies - rejecting dictatorship, sectarianism & fascism since liberating the region from ISIS & former Syrian dictator Assad

WHAT'S HAPPENING NOW?

Last year, the fascist group Hayat Tahrir al-Sham (HTS), an offshoot of Al-Qaeda with links to ISIS, took control of the Syrian government. It is:

- Invading areas of Rojava, committing massacres against minorities, pulling down statues of women, and freeing ISIS prisoners
- Bombing cities and civilian infrastructure supported by the Turkish government

HTS is backed by a global imperialist alliance: the US, UK, EU, Israel, & Turkey, seeking to secure their access to Syria's resources e.g. oil.

FROM PALESTINE TO ROJAVA, THE PEOPLE RESIST

People in Rojava refuse to surrender to fascism and have sworn to resist. People around the world are mobilising in support!

WHAT CAN WE DO?

Thousands are on their way to Rojava to join the resistance. That is one important part of the fight against fascism: we can be another.

The silence and inaction of the UK government emboldens Rojava's attackers. We must demand that this government:

- Applies **immediate political pressure** to stop the attacks against civilians and urgently call for a ceasefire at the international level
- **Terminates all political, military, and logistical ties** connecting the UK to groups affiliated with Al-Qaeda, ISIS, or the Syrian Transitional Government. The UK should take a clear stance against fascism
- **Take a clear position against the threat of ISIS** - the release of ISIS members and policies that enable them to reorganise must be opposed given the deadly threat they pose to people everywhere
- Tens of thousands of people have been displaced by this war who need urgent **shelter, healthcare, food, and psychosocial support**
- **Independent international monitoring mechanism for war crimes** in Rojava, ensuring that those responsible are **held accountable**.
